NOTICE TO THE TRADE – DeCA NOTICE 25-101

SUBJECT: Non-Fresh Mandated Rack Program, April 2024 – March 2027

The purpose of this notice is to update the program with approved racks and tab information, as outlined in the attached Non-Fresh Mandated Rack Program for April 2024 – March 2027.

You will notice that the entire list of Produce items under the existing program is removed, but the list of produce under the Rack/Cooler program remains unchanged from NTT 25-22, released on December 11, 2024. The Fresh team will be designing and implementing a Fresh Mandatory program, which is scheduled for release soon.

The industry is asked to ensure that racks and coolers are kept clean and functional and that items on these fixtures are restocked promptly. Neglecting to upkeep the fixture, product selection, or signage may result in the unit being removed from the program.

Each respective category manager can address questions concerning racks in this program.

Todd Heasley
Acting Director of Sales, Non-Fresh

Swell Allowance Program

- **What is the Swell Allowance Program? Started in 2006**
- Eliminates Brand Name Resale vendor credits memorandums (VCM) written for unsaleable products
- Converts dollars of VCM's for unsaleable products into a mutually agreed upon percent, automatically deducted from each vendor payment
- Why do we have a Swell Program?
- Reduced manual requirements to process VCM's
- **What is not covered under Swell?**
- Manufacturer and DeCA deletes.
- Guaranteed Sales are under **(VCM Type 4)** such as holiday items that do not sell and are not unsalable; items that do not sell within a specific period of time, such as holiday or seasonal items; or regular and promotional items that are under a specific buy-back agreement.
- Report of Discrepancy (ROD).
- Promotions/truckload sale items.
- All food activities (ALFOODACT)/voluntary recalls.
- Price reductions - items voluntarily marked down by the vendor in order to promote the sale of products or short dated/distressed items reduced for quick sale.
- Direct Store Deliveries (DSD and DSDS)
- Returned merchandise - products in good condition voluntarily returned to the vendor at their request and/or items donated by a vendor to other qualified organizations.
- Distributor shortages, damages, mis-picks, etc.
- Products for demonstrations.
- Commercial activities contractor damages.
- Inventory adjustments posted by the 5th working day in SharePoint – SharePoint/DeCA public folders/Swell Allowance/Inventory adjustments

SWELL

- What companies are on the Swell Program? Print contract of each company approved to be on Swell place in a folder for quick reference
- Additional Information on the Swell Allowance program can be found in DeCAM- 40-05.1
